Re: How to use StudioCraft Case Studies

Please use these case studies to reinforce your dealer offer, brand, and presence. We've designed them to help you capture and sell more of a client's floorplate, so you and your dealer can surpass sales goals.

Our curated portfolio of case studies continues to grow. You can search for one that best suits your opportunity by going to the StudioCraft website and selecting "Case Studies" (studiocraft.com/case-studies).

The case studies are arranged and color coded by the markets/applications that StudioCraft typically serves. These include Office, Healthcare, Government, Hospitality, Higher Education, and Branded Environments.

You can co-brand each case study with your dealer logo, name, and contact information. We've reserved space in the header both on page 1 and above for you to do so (see the placeholders, outlined in red).

StudioCraft is a manufacturer that sells and distributes through dealers. Our custom multi-material fabrication capabilities allow us to deliver the exact architectural and furniture solutions you and your clients desire. We can provide solutions that are millwork or office furniture based. Our process includes designing to your specifications, professional engineering, and precise manufacturing. The result is an exceptional product backed by our impeccable service.

About StudioCraft

StudioCraft's team of educated craftspeople—most with degrees in furniture design or fine arts—respect the details. Our track record of custom work demonstrates purposeful design, professional engineering, and precise manufacturing, all of which results in exceptional products backed by impeccable service.
