

Design

Create a better experience for all.

Build

Precise factory-made modules enable better asset management, optimizing your investment.

Install

Product arrives at the jobsite pre-made and ready for installation, helping you stay operable during renovations and open faster in new construction.

StudioCraft has the expertise to create nearly any architectural or furniture solution to meet your needs. We deliver the exact designs you desire with our custom multi-material fabrication capabilities.

Driving Efficiency Through Custom Design

How StudioCraft Helped a Law Firm Create an Efficient Employee Experience with Custom Desk Design

Need a non-standard furniture solution?
StudioCraft will meet you where you are in the design process.

Project Description

When you work in a relationship-based field like law, creating a great employee experience is a key differentiator. To help one of the top 50 law firms in the US achieve this, we outfitted stunning administrative offices with desks that combine the performance and efficiency of standard office systems furniture with a custom look and feel. The goal was to transform their real estate into a tool for helping the firm build credibility and trust with clients.

Process

Our challenge was working with the dealer to build fully modular, height-adjustable workstations with custom cabinetry. The finishes we used would need to match the manufacturer’s finishes exactly. And the resulting design would need to enhance productivity for the staff and achieve the upscale aesthetic the law firm needed to entice clients.

Solution

To help boost employee efficiency, we crafted desks with cabinets that feature in- and out-boxes, drawers, and cubbies where employees can store work supplies and personal items. These cabinets are clad in Cambria™ quartz that surrounds back-painted glass facades. This detail lends a bright, refined look to the office.

We also helped our dealer partner ensure a seamless aesthetic by extending the cladding on the sides of the desks where the connector covers would typically be placed. Made from Chemetal™, these panels enhance the sophisticated design aesthetic in the space.

The law firm now has beautiful, highly efficient administrative offices that have the flexibility and performance of typical systems furniture but with an elevated design only StudioCraft can offer.

About StudioCraft
StudioCraft’s team of educated craftspeople—most with degrees in furniture design or fine arts—respect the details. Our track record of custom work demonstrates purposeful design, professional engineering, and precise manufacturing, all of which results in exceptional products backed by impeccable service.
