Project Description

SCL Health enlisted our help to create a consistent visual brand image for their lobby reception desks throughout their outpatient clinics in Colorado, Kansas, and Montana. They wanted an upscale millwork-look façade with stone accents while maintaining a functional interface for staff and guests.

Process

StudioCraft, in collaboration with our dealer partner, created systems-based lobby reception desks. The design incorporates Cambria™ quartz façade and has all the functionality of the modular system.

Solution

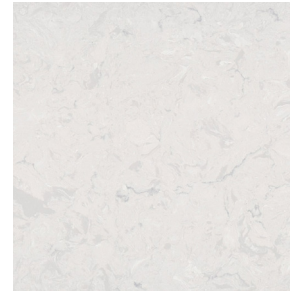

We took a competitive approach to bidding this project, which our dealer partner won based on their ability to help the client reinforce their brand. SCL Healthy also had a seamless experience throughout the bid process, and appreciated our commitment to quality, appearance, and affordable pricing. In winning the project, our dealer partner secured all SCL Health’s business at each of these clinics.

By working with us, SCL Health was better able to plan project timeline deliveries for the on-time opening of their clinics and modular, off-site build with no clean-up. Now that the project is complete, SCL Health is equipped to provide consistent brand and user experiences for visitors and staff.

“Your work, follow-up, quality of the product, expertise, and responsiveness are amazing.”
