

Design

Create a better experience for all.

Build

Precise factory-made modules enable better asset management, optimizing your investment.

Install

Product arrives at the jobsite pre-made and ready for installation, helping you stay operable during renovations and open faster in new construction.

StudioCraft has the expertise to create nearly any architectural or furniture solution to meet your needs. We deliver the exact designs you desire with our custom multi-material fabrication capabilities.

Capability Spotlight: Custom Screens

Explore StudioCraft's Expansive Portfolio of Screen Solutions for Office, Healthcare, and More

Need a non-standard furniture solution?
StudioCraft will meet you where you are in the design process.

How We Can Help

For clients in need of versatile screens for their offices, healthcare facilities, and more, StudioCraft manufactures solutions for the following applications:

- Space division
- Physical separation
- Security
- Visual and acoustic privacy
- Modesty
- Social distancing
- Tackability
- Dry-erase
- Intriguing design element

What We Build

Our skilled craftspeople can create screens of any size in acrylic, glass, decorative glass, 3form, fabric, and laminate. All screens we produce can be framed or unframed to match manufacturers' finishes and design details, and in any dimensions.

Whether a client requires screens that are straight or curved, connected to form L- and U-shaped applications, attached or free standing, or pass-through, we can create a custom solution to suit any need. Installation for all screens we produce is efficient, tool free, and with no visible fasteners—no matter if they're being mounted to a wall, panel, worksurface, or in a channel.

Screens from StudioCraft can enhance the functionality of furniture and the overall versatility of a space. Mounted under worksurfaces, they act as modesty panels or create a more defined desk unit. Above worksurfaces, screens can line the back to separate workstations. Or to separate a long run of worksurfaces, they can be positioned front to back.

For customers looking to enhance the aesthetics of their facility or make a bold brand statement, a multi-functional, custom gallery panel can both define space and add a unique look. They can also serve as an art element and aid with wayfinding.

How Clients Benefit

StudioCraft offers more choices—more screen applications, more screen material choices, more finishes, and more sizes than any other manufacturer.

Professional Athletic League

StudioCraft created gallery panels made from repurposed court material. These screens provided wayfinding and reinforced the league's brand.

Citibank

We built custom screens to add bright bursts of color to this workspace.

Service Employees International Union

To enhance productivity for employees, we made freestanding and worksurface space dividers in fabric.

About StudioCraft

StudioCraft's team of educated craftspeople—most with degrees in furniture design or fine arts—respect the details. Our track record of custom work demonstrates purposeful design, professional engineering, and precise manufacturing, all of which results in exceptional products backed by impeccable service.
